Every type of angel has its own unique design. The beads and ornaments might differ slightly from the angels presented on the website, depending on availability. However, all angels will be made in line with their specific colour theme

If you look closely you will soon discover that none of the angels are identical, even if they are the same design. The one has bigger wings than the other, or the feather dress is a bit longer - or shorter. This is of course due to the fact that every single Karoo Angel is entirely made by hand. And the ostrich has of course no standardized measurements for its feathers...

The angels are packed in resealable plastic bags for storage, accompanied by a name tag and a card telling the Karoo Angels story. The card designs you see here will be gradually introduced in 2017, some angels will still be packed with the previous card designs. The feather angels might look a bit 'flat' in the plastic bags. They need air to unfold - and the longer they are exposed, the more fluffy and voluminous the angels will appear.

Every angel has a special 'brand bead', identifying the angel to be a genuine Karoo Angel. The first brand bead had a shape of a heart, the new brand bead is a circle with the Karoo Angels logo, and is placed on the back of the angel. By looking at the engraved letter in the bead you can identify whether the angel is made by the Rietbron or the Vondeling crafters.
